List of Audit Criteria Topics
A Best Practice Implementation Project measuring compliance with recommendations arising from consultations by an
Abdominal Survery: Early Mobilization (ERAS)
Acute Care Pathway for Young Clients with the First Episode of Psychotic Symptoms
Adherence to immunosuppression medication following kidney transplantation
Administration and supply of medications by registered nurses in rural and remote areas
Administration of BCG for Bladder Cancer
Administration of PRN analgesia
Admission to Residential Aged Care
Adults with Special Needs: oral Health
Advance Care Planning

Adverse Drugs Reactions
Aerosol Inhaler Techniques
Aggression in Hospital and Mental Health Unit: Prevention
Aggression in Older People: Antipsychotics
Analgesia Intermittent Subcutaneous
Alcohol Use Disorder
Anemia in Children (Malaria-endemic Areas): Oral Iron Supplementation
Antenatal Care: Education for Healthy Lifestyle (2019)
Antenatal Care: Fundamentals (Low Risk Pregnancy)
Antenatal Corticosteroids: Fetal Lung Maturation
Antenatal Psychosocial Assessment
Anxiety Disorders Self Help
Application and Care of Acticoat (Superseded 2016)
Appropriate blood pressure measures for initial diagnosis of hypertension
Assessment and Management of Bowel Function in Adult Patients in an Intensive Care Unit: A Bowel Management Pr
Assessment for Tertiary Burn Unit Care
Assessment of Fetal Monitoring in High Risk Antenatal Women
Assessment on Patient Admission to Inpatient Wards
Asthma Management
Asthma: Self-Management Education in Healthcare Facilities (Pediatrics)
Asymptomatic Men who have Sex with Men who Disclose High Risk Behavior
Aural Toilet (Aged Care)
Bariatric Patients: Manual Handling
Basic Life Support: Training for Health Professionals
Bathing
Bathing ICU Patients with Chlorhexidine Washcloths
Benign Prostatic Hyperplasia: Transurethral Resection of the Prostate

Bladder Irrigation Post Transurethral Resection of the Prostate (TURP)
Blood Glucose Monitoring
Blood Sample Collection: Venipuncture in Pediatrics
Blood Sampling: Patient-Practitioner Communication
Breast Cancer: Exercise Prescription
Breast Cancer: Lymphedema Management
Breastfeeding Signs of correct positioning & attachment
Breastfeeding: Engorgement
Breastfeeding: Nipple Pain/ Trauma
Breastfeeding: Prevention of Engorgement
Burn Wound Management Primary Care Facility
Burn Wound Management Tertiary Care Facility
Burns Nutritional Support
Burns Pain Management
Burns Swallowing
Burns Unit: Preparation for Transfer
Burns: Body Image
Burns: Care of Biobrane
Burns: Telemedicine
Cancer Chemotherapy: Pre-treatment Patient Assessment
Cancer related fatigue
Cancer Related Fatigue: Assessment
Cancer: Non-Pharmacological Pain Management
Cannabis or Illicit Drug Use: Education for Young Adults (2019)
Capillary Blood Sampling Procedure (Neonates): Clinical
Cardiac Catheterisation: Pre-Procedure Care

Care of Facial Burns
Care of intravenous catheter sites
Care of the Percutaneous Nephrostomy Tube
Cavity Wounds
Central Line Bundle: Insertion
Central Line Bundle: Maintenance
Central Venous Access Device (CVAD)-related Contact Dermatitis: Prevention and Management
Central Venous Catheter: Dressing and Flushing
Central Venous Catheter: Insertion
Central Venous Catheter: Patency, Assessment and Management of Occlusion
Central Venous Catheter: Removal
Central Venous Implantable Port: Maintenance
Challenging Behavior in the Acute Care Setting: Prevention and Management
Challenging Behavior in the Acute Hospital Setting
Challenging behavior; dementia; nursing home; (residential care): Assessment and Non-pharmacological management
Challenging behaviour acute care Hospital setting - Older Person
Charge Nurse Education
Chemical restraint
Chemotherapy: Documentation by Nursing Staff (Inpatient and Outpatient Settings)
Chemotherapy: Extravasation Management
Chemotherapy: Nursing Education
Chemotherapy: Peripheral Neuropathy
Chemotherapy-Induced Nausea and Vomiting
Chest drains (Insertion, Maintenance, Monitoring and Removal)
Chest Physiotherapy
Children with Cerebral Palsy: Physiotherapy
Chronic Disease Self Management

Chronic Heart Failure - Transition Care Hospital to Home
Chronic Obstructive Pulmonary Disease (COPD): Oxygen Therapy Management
Chronic Obstructive Pulmonary Disease: Self-management (2019)
Chronic Rhinosinusitis (Adults): Diagnosis (Clinical and Imaging)
Clinical Deterioration: Early Detection and Escalation of Care
Clinical Deterioration: Rapid Response Systems
Clinical Handover
Clinical Risk Management: Care of the Older Person
Colonoscopy: Bowel Preparation
Colorectal Surgery: Discharge Criteria
Complex regional pain syndrome (children): Occupational therapy
Complex Regional Pain Syndrome Type I (children): Physical Therapy
Conflict Resolution in Healthcare Settings – Staff Conflicts
Congestive Heart Failure: Disease Management Programs
Constipation associated with analgesia
Constipation of hospitalized patients
Contact Lens Care (Aged Care)
Continuous Subcutaneous Insulin Infusion (CSII)
Cooling and Vibration for Pain and Anxiety Relief During Blood Sampling in Pediatric Clients
Coronary Computed Tomographic Angiography: Administration of Medication for the Heart Rate Control for Optimal
Correct Patient Identification: Acute Care Settings
Criteria Led Discharge
Critical Care: Patient Flow (Admission, Discharge, and Triage)
Critically Ill Children: Oral Care
Critically Ill Patients: Pressure Injury Prevention
Cultural Safety/Competence for New Staff in Indigenous Health Settings
Deep Venous Thrombosis in Stroke: Prevention

Deep Venous thrombosis Prophylaxis in ICU Non-Pharmacological Interventions
Delegation: Healthcare Support Workers
Delirium: Risk Screening, Assessment and Management (2019)
Deprescribing Strategies
Detection of Delirium
Diabetes in Pregnancy: Antenatal Care
Diabetes Self-Management Education in Acute Care Settings
Diabetes Self-Management Education in Community Health Settings
Diabetes (Type 2): Dietary Management (2019)
Diabetic Foot Ulcers: Assessment and Management
Diabetic Foot: Assessment and Prevention of Complications in Hospital Setting
Diagnosing Tuberculosis in children less than 5 years of age
Digital Removal of Feces (Neurogenic Bowel or Spinal Cord Injury): Community Setting
Discharge before Noon
Discharge of Pre-Term Infants: Facilitating Family's Readiness
Discharge Planning: Acute Coronary Syndrome
Distress management in cancer patients
Documentation at Transfer of Care
Documentation of Abdominal Pain at Emergency Department
Documentation of medication and food allergies on patient records
Ear Syringing (Aged Care)
Early Detection of Clinical Deterioration and Escalation of Care: Use of the Adult Deterioration Detection System (AD
Early Rheumatoid Arthritis: Management
Edematous Hand (Stroke): Assessment
Edematous Hand (Trauma): Assessment
Emergency Department Discharge: Acute Cardiac Failure

Emergency Department(ED): Nurse Initiated Analgesia
Emergency equipment and supplies - Checking and maintaining inventory
Empowerment through Exposure: Involving Adult Patient's Main Caregiver in Bedside Nursing Care (Intensive Care U
End of Life Care Nursing Assessment
Endometriosis: laparoscopic surgery
Enema Administration
Enema Administration: Community Settings
Enhanced Recovery After Surgery: Post-Operative Pain Management
Enhanced Recovery After Surgery: Pre-Operative Fasting in Adults
Expression of Milk for Pre-Term Infants
Extravasation from intravenous computerized tomography contrast media (adults): Prevention
Eye care for intensive care patients
Eye Drops
Eye Irrigation (Aged Care)
Eye Toilet
Facial Burns
Faecal Specimen
Fall assessment and intervention
Fall prevention post stroke
Falls (Older People): Assessment and Prevention in the Community Setting
Falls Prevention – CNAHS
Falls Prevention in General Ward Inpatients: Nurse-led Exercise
Falls Prevention Strategies – HCF
Fasting for diagnostic tests
Febrile Response (Paediatric): Management
Fetal Monitoring among High Risk Pregnant Women
Fluid Balance Charts: Clinician Information

Foot Ulcers in Patients with Diabetes
Forensic Examinations: Preventing DNA Contamination
Frailty: Management in the Older Person
Functional assessment in acute care
Gastrostomy Feeding (School Setting): Tube Care and Infection Control
Generalised Anxiety Disorder: Integrated care pathway
Gestational Diabetes: Intrapartum and Newborn Care
Graduated compression stockings for the prevention of post-operative venous thromboembolism
Hamstring injury: Treatment
Hand Hygiene
Healthcare Facilities: Patient Aggression/Violence (2019)
Healthcare Team: General Principles of Communication
Heart failure (Chronic): Fluid management
Heavy menstrual Bleeding
Heel Pressure Ulcers in Acute Care: Prevention
Height and Weight Measurement in Older Persons
Hemodialysis: Clinical Pathway for New Patients
Hemodialysis: Grading of Clotting in the Extracorporeal Circuit
Hemodialysis: Management of Non-Adherence to Fluid-Intake Restrictions
Hemodialysis: Post Dialysis Fatigue
High Risk Pregnancies: Antenatal and Intrapartum Fetal Monitoring
HIV/AIDS: Non-Pharmacological Fever Management
HIV/AIDS: Nutritional Management
Hospital Discharge: Acute Care to Home
Hospital Environment (Intensive Care Unit): Lighting
Hospital-Acquired Pressure Injury: Prevention
Hospitalized Older Adults: Comprehensive Geriatric Assessment

Hypertension: Assessment of cardiovascular risk, target organ damage and lifestyle interventions
Hypertension: Diagnosis
Hypertension: Self Management
Hypodermoclysis: Aged Care
Hypoglycemia management
Identification and management of dysphagia in adults with a neurological impairment
Identification and management of dysphagia in children with neurological impairment
Imaging and Follow Up in Patients with Intracranial Aneurysms Treated with Endovascular Coiling
Imaging and Follow Up in Patients with Intracranial Aneurysms Treated with Surgical Clipping
Immediate Essential Newborn Care
Immobility in bed: Bed pole effectiveness and risk assessment
Improving Symptom-Related Communication Skills for Patients with Cancer
Indigenous Health: Data Management Systems
Indigenous Health: Elevated HBA1c Management
Indigenous Primary Healthcare: Continuous Quality Improvement
Indwelling Catheters in Adults: Patient Education
Indwelling Urethral Catheter: Management (Community Setting)
Infant Nutrition: Indigenous Communities
Infective Conjunctivitis Management
Informed Consent
Initiation of Pre- and Post-operative Feeding in Patients following Gastrointestinal Surgery
Injection Intradermal
Injection Intramuscular
Inpatient Falls Prevention and Management
Intensive Care Unit: Bedside Monitoring and Calculation of QT Intervals
Intensive Care Unit (ICU): Family Visiting Policies - Audit Criteria

Intra-Hospital Transport: Clinician Information
Intrapartum Care
Intravenous Heparin Infusion
Kangaroo mother care
Knowledge retention from pre-operative information
Labour: Induction
Lagophthalmos: Eye Care
Laryngectomy: Daily Stoma Care
Last Offices
Local Applications - Heat Lamp
Low Back Pain: Initial Management
Low Back Pain: Physical Therapy Management
Lower Limb Split Thickness Skin Grafts: Mobilisation and Ambulation
Lung Cancer: Assessment and Management of Cough
Maintaining oral hydration in older adults.
Maintenance of Peripherally Inserted Central Catheter (PICC): Neonates
Malaria Treatment (Children): Artemisinin-based Combination Therapy
Malaria: Diagnostic testing before commencement of treatment
Malnutrition (Surgical Patients): Nutrition Screening and Interventions
Malnutrition in Hospitalized Adults: Screening 2018
Management of alcohol dependence in primary care
Management of alcohol withdrawal syndrome
Management of constipation in older adults.
Management of Constipation in Palliative Care
Management of Dyspepsia in Adults
Management of EGFR Inhibitor Induced Skin Reactions
Management of Frailty in Older People

Management of generalised anxiety disorder
Management of Hypothermia in Burns Patients in the Operating Room
Management of pain in patients with cancer
Management of Perineal Pain
Management of physical aggression in dementia residents
Management of resident aggression in the aged care setting
Management of Steroid Induced Hyperglycemia in Outpatients Undergoing Chemotherapy
Management of Urinary Incontinence in Frail Older People
Management of urinary incontinence in the older person
Managing Urinary Incontinence in frail older people - A detailed assessment is carried out which includes an assessment
Managing Urinary Incontinence in frail older people - An individual treatment plan should be in place for setting individual
Managing Urinary Incontinence in frail older people - Each patient/resident has been actively screened for symptoms of
Managing Urinary Incontinence in frail older people - Specialist referral should be made where required (for example, for
Mealtime assistance in acute care
Medical Adhesive Injury: Prevention
Medical Device Related Pressure Injury Prevention
Medical Imaging: Reducing Anxiety and Claustrophobia
Medication Administration
Medication Administration in the Community
Medication Error: Independent Double Checking
Medication Omissions: Clinician Information
Mental Health Care Planning
Mental Health: Intramuscular Injections (Ventrogluteal Site)
Metronidazole (Adults; Inpatients; Medical; Surgical): Route of Administration (Intravenous; Oral)
Midwifery Knowledge Regarding use of Raspberry Leaf Herb
Mindfulness: Nursing
Monitoring adverse effects from medication in clients with attention deficit hyperactivity disorder

Moral Distress In Nurses: Interventions for Coping
Multidisciplinary Rounds: Standardized Nursing Communication Tool
Multidrug Resistant Tuberculosis: Strategies to Improve Medication Adherence
MUST
Nappy Dermatitis
Nasoenteric Feeding: Discharge Planning
Nasoenteric tube feeding: monitoring
Nasogastric Feeding Tube Insertion and Position Checking
Nasogastric tube care
Nasogastric Tubes: Flushing
Needlestick Injury: Prevention 2018
Neurological Assessment
Neurological conditions: Bladder Management
Neurovascular Assessment
Newborn Resuscitation
Newborn Umbilical Cord Care
Nonpharmacological management of challenging behavior
Nonpharmacological analgesic interventions: newborn infants
Nurse Facilitated Reflective Exercise Following a Patient's Death
Nurse Involvement in Mutlidisciplinary Ward Rounds
Nurses Improving for Care for Healthsystem Elders (NICHE)
Nursing Care: Patient Education
Nursing Management in the Care of the Chest Drain (Child)
Nursing Management of Post Stroke Dysphagia
Nursing Rounds
Nursing: Clinical Supervision

Nutrition as Therapy
Nutrition assessment and management among patients with gastrointestinal cancer undergoing chemotherapy
Nutrition Knowledge: Rural Communities
Nutrition Management Post Stroke: Rehabilitation
Nutritional Screening: Community Settings
Occupational Therapy Cognitive Assessment and Rehabilitation among Adult Stroke Patients in Sub-acute Rehabilitation
Older Adults: Preventing Functional Decline During Hospitalization
Open Angle Glaucoma: Management
Operating Room: Surgical Counts
Oral hygiene care for adults with dementia in residential care facilities
Oral hygiene for acute care patients receiving nasogastric feeding who are dependent in activities of daily living (ADL)
Oral Hygiene: Acute Care Setting
Oral Hygiene in Adults: General Principles (2019)
Oral Hygiene in Children and Adolescents: General Principles (2019)
Oral Mucositis: Prevention and Management Principles
Oral Mucositis: Nutrition
Orthostatic Hypotension (Older People): Management
Otitis Media with Effusion (Children): Diagnosis and Management
Overcoming Barriers to Maintain Hemodialysis Adequacy
Oxygen Therapy (Aged Care)
Pain assessment and management for verbal children in the acute care setting
Pain Assessment at Triage
Pain Assessment Following Stroke
Pain Assessment in Aged Care
Pain Assessment: Verbal Adults in the Emergency Department
Pain management in general wards
Palliative Care: Delirium Screening

Parents of Children with Cancer: Strategies for Addressing their Psychosocial Needs
Partograph in Labor Monitoring
Patient Acuity
Patient Identification 2018
Patient/Family Engagement in Patient Safety Initiatives
Patients Undergoing Elective Colorectal Surgery: ERAS Nutritional Recommendations
Pediatric Diabetes Education
Pediatric Falls: Prevention
Pediatric Fever
Pediatric pain assessment (verbal age 3-12): Post operative
Pelvic Floor Muscle Training
Pelvic Floor Muscle Training (Antenatal and Post-natal) 2019
Perineal Pain After Childbirth: Escalation of Care
Perineal Repair
Perioperative Management of Diabetic Patients
Perioperative Settings: Communication
Peripheral Arterial Disease: Risk Factor Modification
Peripheral Cannula Care
Peripheral Intravascular Access Device Management
Peripheral Intravenous Cannula (PIVC) Care (2018)
Peripheral Intravenous Cannulation
Peripherally Inserted Central Catheter (PICC): Dressing and Flushing (Superseded in 2016)
Peripherally Inserted Central Catheter (PICC): Duplicate Record DO NOT USE
Peripherally Inserted Central Catheter (PICC): Management
Peritoneal Dialysis: Constipation
Peritoneal Dialysis: Constipation Assessment (Pediatrics)
Prescribing Practices: Handwritten Prescriptions

Person Centred Falls Prevention
Physical restraint in acute and aged care
Physical Therapy Management of Paediatric Burns
Positioning and splinting of non-grafted acute hand burns
Post Discharge Telephone Follow-Up
Post-anesthetic Discharge Scoring Criteria
Postnatal Care
Postoperative Capnography Monitoring
Postoperative care of total laryngectomy patients on the ward
Postoperative Delirium: Prevention and Management
Postoperative Delirium (Older people): Prevention and Management
Postoperative Patient Handovers
Postoperative Split-thickness Skin Graft Care in the Burns Unit: Nursing Management
Postpartum Depression: Assessment
Post-Surgical Infant Breastfeeding during Hospitalization
Post-Surgical Patients (Wound-Related Pain): Protection and Support
Premature Infant Bathing
Pre-operative education for Total Knee Replacement
Preoperative Fasting
Prescribing pressure relieving cushions for wheelchair users
Pressure Area Care - Turning
Pressure Area Care (Aged Care)
Pressure Injury Classification and Documentation
Pressure Injury Prevention: Surgical Procedures
Pressure Ulcer management
Pressure Ulcer Management: Nutrition

Pressure Ulcer Prevention and Management
Prevention and Management of Post Operative Nausea and Vomiting
Prevention and Reduction of Postoperative Pulmonary Complications
Prevention and treatment of oral mucositis in cancer patients
Prevention of Catheter-Associated Urinary Tract Infections - Appropriate Catheter Use and maintenance
Prevention of Catheter-Associated Urinary Tract Infections - Catheter Insertion
Prevention of Constipation in Older Adults (Aged Care)
Prevention of Hypoglycemia in patients with Type 2 diabetes during Ramadan
Prevention of Mother to Baby HIV Transmission
Prevention of sharps injuries
Prevention of Surgical Site Infection in Operating Rooms
Primary Postpartum Hemorrhage
Primary Postpartum Hemorrhage: Prevention and Management
Primary Teeth: Formocresol Pulpotomy
Promotion of Sleep and Rest for patients in Acute Care
Promotion of Sleep and Rest for Hospitalized Pediatric Patients in Intensive Care
Promotion of Sleep and Rest for Hospitalized Pediatric Patients in General Wards
Promoting sleep and rest in intensive/critical care units (2019)
Promoting Sleep and Rest During Hospitalization (non-ICU)
Prosthodontics (Dental Implants): Dentist-Patient Communication
Radiographer Commenting
Rapid Response Teams
RED TRAYS
Reducing Unplanned Extubation Rates in Neonatal Intensive Care Units
Residents with Advanced Dementia
Rheumatic Heart Disease
Rheumatoid Arthritis: General Treatment and Management

Risk Assessment of Malnutrition in Inpatient Facilities
Sedation Assessment for Mechanically Ventilated Patients: The Richmond Agitation Sedation Scale
Sedation following Endoscopic Procedure: Discharge Care
Self-Harm (Inpatient Mental Health Ward): Assessment, Prevention and Treatment
Self-Management of Inflammatory Bowel Disease
Sexual Health Education Program Indigenous Youth
Sheath Drainage
Shoulder Pain: Nursing Assessment and Management
Sickle Cell Disease (Adolescents): Patient Education
Skin Management in Premature Infants
Skin Tears: Assessment, Prevention and Management
Skin Tears: Community Setting
Sleep Disturbances (Intensive Care Units): Noise Reduction and Behavior Modification
Smoking Cessation: General principles
Smoking cessation - Interventions and strategies
Solutions and techniques for wound cleansing - Sutured wounds (clean post-operative wounds and primary closed wounds)
Spinal Cord Injury: Bladder Management
Standardized Wound Care Delivery
Sterile Water Injections for Back Pain in Labour
Stoma Care
Stoma Pouch Change
Stoma: Perioperative Management
Stroke (Older People): Family/Caregiver Resilience in Community Settings
Subcutaneous Injection
Support for Carers
Suppository Insertion
Surgical Patients: Pain Assessment

Surgical Patients with diabetes: general management principles
Surgical Safety Checklists: Implementation and Compliance
Surgical Site Infections (Post Cesarean Section): Perioperative Prevention
Systematic Perioperative Oral Hygiene for Elective Thoracic Surgery Among Adults
Temporal Artery Thermometry
Tepid Sponging (Aged Care)
Tetraplegia: Upper limb function optimization
The assessment of delirium in acute care facilities using CAMS
Total laryngectomy education and discharge
Total laryngectomy preoperative assessment and education
Tracheal suctioning of adults with an artificial airway
Transitional care from hospital to home for older people
Transradial Angiography and Intervention: Nursing Care
Traumatic Head Injury: Early Assessment and Management
Triage Accuracy for Patients with Chest Pain to the Emergency Department: Front Door Score
Trial of Void and Bladder Scanning: Community Settings
Tuberculosis Prevention
Tuberculosis: Community-Based Management of Drug-Resistant Strains
Tuberculosis: Management of Adverse Drug Reactions
Type 1 Diabetes Mellitus: Parent/Carer Education
Type 1 Diabetes Mellitus: Patient Education
Urethral Catheterisation - Female
Urethral Catheterisation - Male
Urethral Catheterisation Clean Intermittent
Urinary and Fecal Incontinence: Assessment and Conservative Management
Urinary Catheter: Removal

Urinary Catheter: Removal Following Surgery
Urinary Catheterization
Urinary Leg Bag (Aged Care)
Urinary Tract Infection (Catheter Related): Prevention
Urine Collection Technique: Midstream Urine Sample
Urine Specimen Ward Testing
Use of Acticoat and Acticoat Flex for the Care of Burn Wounds
Using and Assessing for an Interpreter
Venous Leg Ulcers
Venous Thromboembolism (VTE) Prevention
Ventilator: Circuit changes
Ventilator-Associated Pneumonia: Prevention
Ventilator-associated Pneumonia: Prevention (Superseded in 2016)
Video Monitoring Algorithm for Adult Patient Safety
Vital Signs
Vital Signs Frequency of monitoring
Wound Assessment
Wound drains
Wound Infection: Biofilms and Sharp Debridement
Wound Infection: Silver products and biofilms
Wound Management - Hydrogen peroxide
Wound Management (Low Resource Countries): Malodorous wounds
Wound Management: Assessment and Management of Pain During Dressing Change
Wound Management: Assessment and Management of Pain During Wound Care
Wound Management: Debridement – Autolytic
Wound Management: Dressings - Alginate
Wound Specimen Techniques

Wrist Actigraphy: Older People in Residential Aged Care

Wrist Actigraphy: Sleep Promotion
