Chapter 9: Contents

- 9.1 Background
  - 9.1.1 Measures of diagnostic test accuracy
    - 9.1.1.1 Sensitivity and specificity
    - 9.1.1.2 Predictive values
    - 9.1.1.3 Likelihood ratios
    - 9.1.1.4 ROC analyses
- 9.2 Protocol and title development
  - 9.2.1 Title
  - 9.2.2 Review question or objective
  - 9.2.3 Inclusion/exclusion criteria
    - 9.2.3.1 Population
    - 9.2.3.2 Index test
    - 9.2.3.3 Reference test
    - 9.2.3.4 Diagnosis of interest
    - 9.2.3.5 Types of studies
  - 9.2.4 Search strategy
  - 9.2.5 Assessment of methodological quality
  - 9.2.6 Data extraction
  - 9.2.7 Data synthesis
    - 9.2.7.1 Graphic representation
    - 9.2.7.2 Meta-analysis
      - 9.2.7.2.1 Context
      - 9.2.7.2.2 Models
      - 9.2.7.2.3 Heterogeneity
  - 9.2.8 References
- 9.3 Searching for studies of diagnostic test accuracy
- 9.4 The systematic review of studies of diagnostic test accuracy
  - 9.4.1 Executive summary
  - 9.4.2 Summary of findings table
  - 9.4.3 Background
  - 9.4.4 Methodology
  - 9.4.5 Results
  - 9.4.6 Discussion
  - 9.4.7 References
  - 9.4.8 Appendices
- 9.5 Chapter references
- Appendix 9.1 Critical appraisal checklist
- Appendix 9.2 Data extraction instrument
- Appendix 9.3 Meta-analysis equations and models
- Appendix 9.4 Examples of databases
